INSPIRE INCLUSION

DANCE *FILM!*

Inspire Inclusion Dance brings together diverse bodies to showcase their distinct movement expression through dance. The world has tried to define dance in exclusive and particular terms, we aim to change that. Before we do anything else, we move; dance is our first language and a universal one.

These films create space for us to spotlight the incredible movements of ALL bodies, showcasing expression and authenticity in uniquely powerful ways. You're invited to let go of any preconceived notions about what dance is and who can do it, we encourage the opportunity to get lost in the movement. If you can breathe, you can dance. Be moved with us.
